## e. Chiang and the A-Boml

Chiang Kai-shek believes nuclear weapons should be used against the Chinese mainland if the fighting spreads in the Formosa Strait.

She also says that her government would not negotiate with Red China and would oppose demilitarization of the offshore islands because "you can negotiate on everything

except principles."

President of the Hepublic are worth a world war,

The wife of Generalissimo Chi- principles, and shether principles plementary agreement from the

of Asians or not; I think it's a be no war. On the contrary, it to fire.

to date Would you complete on esting the shoot the diministers of that, and his reasons?

A Well I believe their you can whother the question indicate and magnitude as sweethers save principles; and general detailed to the UND handle and I whom I do not has well themore the principles; and general and pairs would be withing to me Mater should be estimated, because that is a street in right of the people of the Religion of China, and it is the littlebile of China, while fall to the UN if the China, while the result of the UN if the China, while fall to the UN if the China the UN if the UN if the China the UN if the UN if the China the UN if the UN i

Nationalists?

and President of the Republic of China, was interviewed yesters day on the NBC-TV program "Meet the Press." Other questions and answers included:

Q. But Asians have been quite resentful of the fact that nuclear weapons have been used only against Asians, haven't they? So we have heard.

A.—Well, I have not heard that. I think it's not a question of Asians or not; I think it's a be no war. On the contrary, it to fire.

Nationalists?

A. I would like to sak this sibility that the crisis in the For question: Who started the against the islands? It wasn't the resentful of the fact that nuclear weapons have been used only against Asians, haven't they? So we have heard.

A.—Well, I have not heard that I think it's not a question approach that is, we like the resentful of the fact that nuclear weapons have been used only against Asians, haven't they? So we have heard.

A.—Well, I have not heard that I think it's not a question of Asians or not; I think it's a be no war. On the contrary, it to fire.

of Asians or not; I think it's a question of necessity. I think war is a terrible thing but if war has to be war then the point is to get through with it as quickly as possible.

Q. Am I to understand by your answer to any first question that the get through with it as quickly answer to any first question that you don't think. Matsit and Questions possible.

Q. Am I to understand by your answer to any first question that the get through with it as quickly answer to any first question that the get through with it as quickly answer to any first question that the get think it as quickly and question to communify affects point?

A. Well, I think the question of Matsu and Quemoy involve passes in the world. It's a question of the analysis of the get than that that the assume that war is to be avoided, presumably diplomacy is the avenue of escape. To a great many people flands steins the compounder of the U. S. will probably then of the avoided, presumably diplomacy fling to bave this winds question to the avoided presumably diplomacy fling to bave this winds question to the great many people flands steins to be avoided. The great many people flands steins the get the U. S. will probably then of the derivation of compromise.

A. Not at all, That was the first people and that you relationship to Real the China discussed in the UN, in a get the great with the unit of the great and the compromise.

tion of the attender slands seems A. Not at all, That was a yet the Generalisation's government has ruled that out a believe that. Strain you compromise that, and his reasons?

A. Not at all, That was a manual process of the waste of the waste of the waste of the waste of the transmit of the transmit of the transmit of the waste of the waste
